5 September 2018

Dear Diane,

The Practice of the Year Award aims to acknowledge the fantastic service being provided by practice teams in Northern Ireland and commend them for the difference they make to their patients.

This is a new award that enables patients to tell us about how their practice goes above and beyond to support them and their families, by providing outstanding levels of care. The Royal College of General Practitioners NI is very pleased to recognise the commitment and service your team delivers to your patients.

I am delighted to inform you that one of your patients nominated you for Practice of the Year 2018.

Please accept my sincere congratulations regarding your nomination. While you did not win the award this year, it is a great honour to be nominated and I hope you will be pleased to hear how grateful and appreciative your patients are for the service, care and dedication your team provides to your local community.

If you have any further questions about your nomination contact Michelle Newell at the RCGPNI office on michelle.newell@rcgp.org.uk or call 020 3188 7727.

Yours sincerely
